Production:

Rundvirke side boards are produced by using carefully selected cants of the finest Swedish origin.

Our logs are not stored in water or sprinkled.

Drying:

A painstaking chamber-drying process employing a specially-designed program is used to maintain a moisture level of 17%+/-2%.

Sorting and cross-cutting:

Screening and sorting according to the quality grades for sawing and drying:

- 25/32 mm, 3-sided, free of knots.
- 38/44/50 mm, Grade A, including 5-10% inferior-grade products. Black-coloured chalk markings are used on items which do not meet length and width specifications and also on inferior-grade products marked Urlägg (=✓).
